July 10, 2009

Dear Gentlemen/Ladies:

NCPS' 2009 Annual Meeting and Scientific Program was a great success and a lot of fun. For me, a lot of the fun came from meeting and spending time with the exhibitors. I hope you will be able to join us as we meet for the **51st Annual Meeting and Scientific Program of the Northern California Psychiatric Society**. The meeting will be held **March 19 - 21, 2010**, at the InterContinental The Clement Monterey, in Monterey, California. Building on several years of successful meetings, we expect a large turnout of psychiatrists in this picturesque resort area. The theme of the meeting will be "**Psychopharmacology and Psychotherapy Across The Life Span.**" The Professional Education committee is encouraging proposals that will address treatment options of all kinds across the life span, early childhood through geriatric.

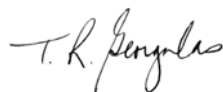

You are invited to participate again as an exhibitor. The weekend will include presentations by outstanding speakers as well as memorable social events. Special events, coffee breaks and continental breakfasts are scheduled in the exhibit area to ensure that psychiatrists will frequent the exhibit booths. I welcome your ideas about how to increase foot traffic in the exhibit hall.

The cost to exhibit is \$2,500 for the three-day event, including set-up costs. I hope you will be able to stay on-site and experience this beautiful new hotel on Monterey's Cannery Row. We will send additional information about speakers and topics, and hotel reservations, when we have the schedule finalized.

If you have any questions please feel free to contact me (415/334-2418, ext. 105 or rgeorgulas@ncps.org).

I'm looking forward to seeing you in Monterey.

Best regards,

Renée Georgulas  
Executive Director
